Github • /taniasharma98

## Work —

### **Front-End Developer + UX Designer**

University Health Network • Apr 2019 - Aug 2019

Built custom front-end framework using Bootstrap,  
HTML/CSS, and JavaScript to redesign websites for  
research facilities

Collected user-research, created user-flows and  
wireframes, resulting in a new and improved brand  
guideline and strategy

### **Teaching Assistant - Design + Dev Course**

University of Waterloo • Jan 2019 - Dec 2019

Provided my experience in front-end  
development and UX through teaching a second  
year web design course

Shared my extensive knowledge of HTML/CSS,  
layout, typography, colour theory, and  
accessibility for both web and app design

Facilitated one-on-one guidance, providing  
assignment feedback, and assistance with labs,  
resulting in a higher class average

## Projects —

### **Attendance Tracker Web App**

As a UX designer + front-end developer on a team, I  
created a web-based attendance app using  
Bootstrap CSS Framework, HTML, Node.js +  
Express

### **Futureland**

Designing visual + digital art for 365+ days.  
Completed projects in various disciplines (UX,  
Animation, Sketching)
